Instantly Vintage,
Forever Classic

**LAZLO™**

PATINA SURFACES

Lazlo brings to you handcrafted patina finishes on various metals like steel, zinc, brass, and copper.

Patina is applied to activated metal surfaces to create a unique, mottled, and artistic ambiance that varies from sheet to sheet. The surface is sealed with a clear coat to protect against scratches, scrapes, and rusting caused by environmental factors.

Our pre-finished steel sheets are one of a kind, featuring high variability in color patterning from sheet to sheet. They create a stunning spectrum of color as the angle of view or illumination changes.

APPLICATIONS:

Interior: wall panels, ceiling panels, door skins, furniture skins, lighting fixtures, and art installations.

Exterior: facades, signage, garden installations such as fences, outdoor lighting fixtures, and sculpture installations.

SIZES:

Standard sizes available:

2 × 2, 2 × 4, 4 × 4, 8 × 4 ft.

Customized sizes are also available to meet your specific requirements.

SERVICES:

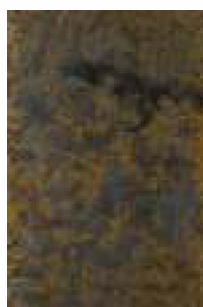

We provide installation services at the site for seamless integration.

If you wish to install the finishes yourself, we supply the necessary adhesives and tapes.

With over 100 finishes to choose from, Lazlo is here to help you create stunning and unique spaces.
